

So, there's a cost involved in moving your site to WPAnnex. I've done what I can to make that cost as low as possible. But I also want you to **see some of what's involved in moving your site from your current host to WPAnnex. Now don't worry, we do it ALL for you:**

1. Updating and upgrading WordPress, your plugins, your database, your theme (design)
2. Backup & export the database 'behind' your WordPress site
3. Export your content (pages, posts, graphics)
4. Run security and malware checks to make sure your site is secure and clean from problems
5. Copy your theme and plugins, download them and get them ready for WPAnnex
6. Setup and configure your location at WPAnnex – including your secure login
7. Import your content (pages, posts, graphics)
8. Upload, install and setup your theme (design)
9. Install, setup, configure plugins (all those little add-ons for your site)
10. Setup and configure new, WPAnnex plugins like Testimonials, Events Calendar & WordPress SEO
11. Rebuild your site's header, sidebar and footer
12. Rebuild your site's navigation bar
13. Setup your blog if you've been using one, or install it if you want to blog now
14. Place all widgets and plugins you've been using
15. Connect to Google Analytics, social media, Google search and your email newsletter service
16. Redirect your web address from your old host to WPAnnex
17. Check all links to make sure they're working correctly
18. Setup nightly backup system
19. There's more techie stuff as well.

Keep in mind **you're going to end up with a site that is fully up-to-date, as secure as it can be made, a set of new features and plugins** (Events Calendar, Testimonials, and more) and nightly backups from the first day you're with us. Then, every day going forward we'll take care of your site – updating it, maintaining it, making sure it's secure and backed up and provide ongoing WordPress training.

Cost: one-time transfer fee of ~~\$350~~ **\$175 and then only the \$25/mo for the full WPAnnex package.**

(note: \$175 pricing will expire at 1pm mountain time on Wednesday, November 30)
